

Request for Proposals

SciTech, in accordance with the FY 2009 Project Questionnaire submitted to Congresswoman Deborah Pryce (copy attached), is requesting proposals from qualified firms and individuals to provide the following planning services related to the OSU Battelle Science and Technology Park (the "Park") in Columbus, Ohio. This Park is a key component in the plan to further develop a vibrant Columbus Technology Corridor. The scope of services being requested is as follows:

- 1) Survey stakeholders including, but not limited to, The Ohio State University, Battelle, SciTech, TechColumbus, the City of Columbus, and the State of Ohio in order to identify a common vision for the Park.
- 2) Survey stakeholders to identify the targeted research profile for the Park.
- 3) Identify established companies and manufacturers that would be attracted to the research profile determined in item 2) above.
- 4) Quantify the potential physical space needs for the research profile both in terms of total square feet and type of space required (academic, laboratory, commercial, etc.)

The successful applicant should have documented experience in business, government and academia. Interested parties should submit their proposal to provide the scope of services outlined above, along with their fee proposed no later than August 12, 2011 to:

Mr. Doug Aschenbach
President
